# Sigma Single LED schijnwerper 30W 6000K

## 2200lm antraciet €ECONOMY

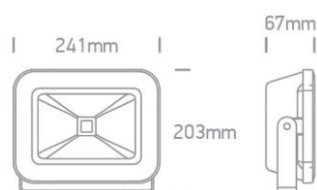

### Technische Daten

|                              |                                                                 |
|------------------------------|-----------------------------------------------------------------|
| Type verlichting             | Schijnwerpers                                                   |
| Bevestiging                  | Bodemopbouw<br>Wandbevestiging<br>Mastmontage<br>Plafondmontage |
| Kleur                        | Antraciet                                                       |
| Uitvoering                   | Aluminium                                                       |
| Afdekkingen                  | Transparant                                                     |
| Stralingshoek (°)            | 120                                                             |
| Voedingen                    | LED Driver                                                      |
| Nominale werkspanning AC (V) | 100-240                                                         |
| Type lamp                    | COB LED                                                         |
| Lampvoet                     | LED                                                             |
| Lichtkleur                   | Koudwit                                                         |
| Kleurtemperatuur (K)         | 6000                                                            |

## Technische Daten - Fortsetzung

|                          |            |
|--------------------------|------------|
| Kleurweergave-index (Ra) | ≥70        |
| Lichtstroom (lm)         | 2200       |
| Aantal lampen            | 1          |
| Beschermingsklasse       | I          |
| Beschermingsgraad        | IP65       |
| Lichtmiddel inbegrepen   | Inbegrepen |
| LxBxH (mm)               | 241x203x67 |
